(Active Cloud)

🔒 **Confidential:** Doctor & Executive
Staff Eyes Only

SYSTEM ARCHITECTURE & OVERVIEW

Welcome, Dr. Bilal: Your Clinic At Your Fingertips

Your Brimish Admin Panel connects every single department of your clinic into one smooth, centralized dashboard. Here is how your clinic runs seamlessly.

100% Real-Time Cloud

Whether you are inside the clinic, traveling, or at home, open your phone or laptop to see live patient visits, earnings, and appointments instantly.

1-Click Thermal Slips

Both walk-in patient bills and courier skincare parcel slips print instantly on standard 80mm thermal paper with pristine clinic branding.

Medical Record Safety

Patient history, clinical treatment notes, before/after photos, and allergy records are encrypted and protected behind doctor login security.

The 8 Core Superpowers in Your Admin Panel:

1

Live Executive Dashboard

Monitor daily gross revenue, patient visit counts, active doctor sessions, and 4-way alerts (Bookings, Orders, Stock, Reviews).

2

Smart Appointment Roster

View daily clinic calendar, confirm booking requests, assign treatment rooms & aesthetic doctors, and send automated SMS alerts.

3

Point of Sale (POS) Cash Desk

Ultra-fast walk-in patient billing with mandatory name & phone validation, discount handling, and instant thermal receipt printing.

4

Online Skincare Store Orders

Manage product deliveries across Pakistan. Change statuses (Confirmed, Dispatched) and print thermal courier box slips in 1 click.

5

Patient Digital EMR Records

Search any patient by name or phone. View past treatments, laser session logs, skin types (Fitzpatrick), and clinical consultation notes.

6

Automated Invoices & Tax GST

Auto-generated sequential clinic invoices (INV-2026-XXXX) with breakdown of consultation fees, procedures, products, and GST.

7

Inventory & Stock Control

Automatic stock deduction when products are sold or used. Instant alerts when serums or laser consumables drop below minimum threshold.

8

Website Content Management

Update treatment prices, add new skincare items with images, upload clinical before/after case studies, and moderate patient reviews.

DOCTOR BILAL'S OPERATIONAL ADVANTAGE:

You no longer need messy paper registers or manual WhatsApp notes. Your receptionist enters the visit once, and the entire system updates your earnings, inventory, patient history, and receipt automatically!

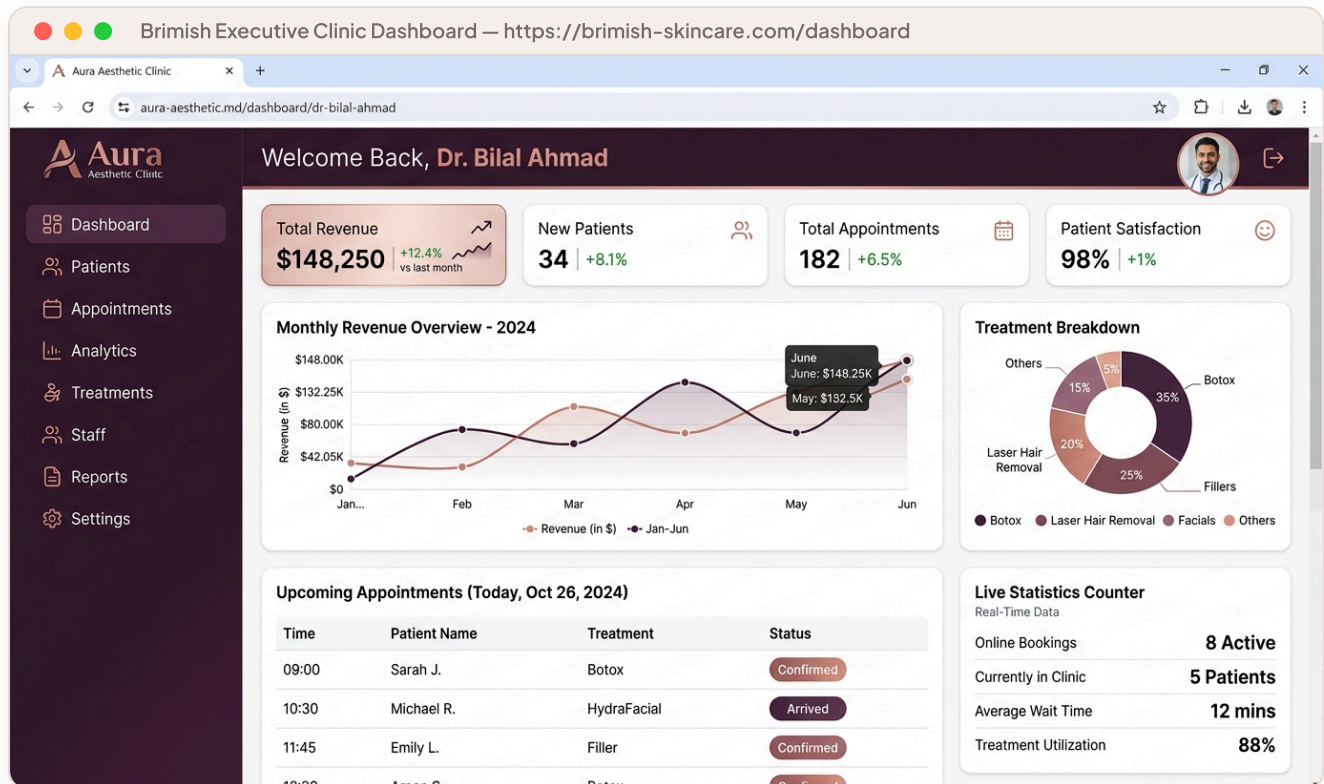

MODULE 1 • EXECUTIVE COMMAND

Executive Dashboard: Your Daily Clinic Pulse

The first screen you see every morning. It summarizes financial health, patient traffic, and pending clinic tasks in real-time.

Live Revenue & Patient Counter

Today's Total Gross Revenue: Instantly updates every time a bill is paid at reception or an online order is confirmed.

Patient Visits: See exact numbers of walk-ins, scheduled consultations, and completed aesthetic procedures today.

4-Tab Instant Notification Bell

Your top-right notification center is organized into 4 crystal-clear tabs:

- 1. Bookings:** New patient requests needing confirmation.
- 2. Orders:** Website skincare purchases to pack.
- 3. Low Stock:** Serums & consumables running out.
- 4. Reviews:** New 5-star patient reviews on your website.

7-Day Financial Performance Graph

Track daily revenue peaks, weekends vs. weekdays, and analyze whether in-clinic procedures (e.g. HydraFacial, Lasers) or skincare product sales are driving your highest profit margins.

Top Performing Aesthetic Treatments

See your most popular procedures ranked by revenue (e.g. Carbon Laser Peel, Microneedling, Glutathione Glow Therapy) so you know which treatments patients love most.

MOBILE & TABLET READY FOR DOCTOR BILAL:

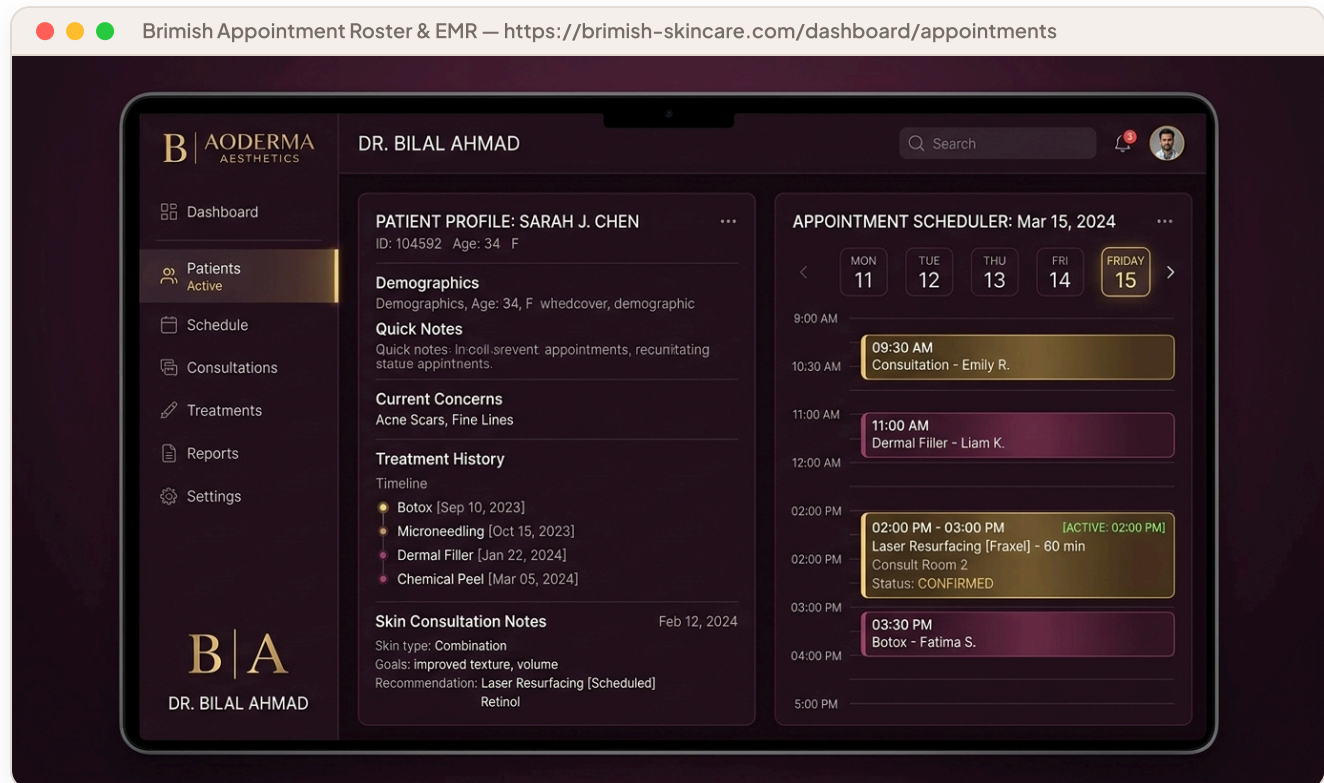

You can open this dashboard on your iPhone, iPad, or Android phone while consulting. No app download needed – just visit your clinic URL and log in securely.

MODULE 2 • SMART PATIENT SCHEDULING

Appointments & Calendar: Zero Waiting Room Chaos

Manage online patient bookings, phone reservations, and treatment room assignments with 1-click status updates.

How an Appointment Moves Through Your Clinic:

1 Patient Books Online or Calls Reception **PENDING**

Patient selects their desired treatment (e.g. Laser Skin Resurfacing) and time slot on your website. It appears instantly on your screen with a notification badge.

2 One-Click Confirmation & Room Assignment **CONFIRMED**

Click "**Confirm**". The system assigns Treatment Room 1 or Laser Suite and sends an automated WhatsApp/SMS booking reminder to the patient.

3 Patient Arrives at Clinic **IN-SESSION**

Receptionist marks patient as "**In-Session**". Dr. Bilal sees on his screen that the patient is in the consultation room ready for treatment.

4 Treatment Finished & Auto-Billed **COMPLETED**

Once procedure is done, status changes to "**Completed**". The invoice automatically sends to the POS desk for instant checkout and receipt printing.

NO MORE NO-SHOWS:

Patients receive direct WhatsApp and SMS reminders before their appointment, cutting missed aesthetic clinic appointments by over 70%!

MODULE 3 • ELECTRONIC MEDICAL RECORDS

Digital EMR: Patient Skin History & Clinical Records

Every patient's aesthetic history, laser session logs, allergy alerts, and prescription notes securely stored in one place.

1-Second Patient Search

Type the patient's name or phone number. Instantly see their entire history: past treatments, payments made, aesthetic doctor who saw them, and upcoming visits.

Medical Safety & Skin Profiling

Record Fitzpatrick Skin Type (Type I - VI), active allergies (e.g. Lidocaine allergy), acne severity, pregnancy contraindications, and sensitive skin conditions.

What Dr. Bilal Can Record in Each Patient Profile:

Doctor's Clinical Notes

Write confidential medical observations during consultation: e.g. *"Patient presents with melasma on cheeks. Prescribed 20% Azelaic Acid + HydraFacial Session 1."*

Multi-Session Tracker

Track packages effortlessly: e.g., **Laser Hair Removal Session 3 of 6.** The system records laser joules, pulse duration, and spot size used.

Before & After Records

Attach high-resolution consultation photos (Day 1 vs. Day 30) directly to the patient's private profile to show their skin transformation.

Post-Care Instructions & Home Regimen

Add recommended take-home skincare (e.g. Brimish Vitamin C Serum + Mineral Sunscreen SPF 50). Receptionist can add them to the patient's bill with 1 click.

Confidential HIPAA & Medical Privacy

Patient clinical notes are only visible to Dr. Bilal and authorized medical staff. Receptionists only see billing and appointment scheduling details.

TOTAL CLINICAL CONFIDENCE:

When a patient walks in after 6 months, you can open their profile in 3 seconds and know exactly what treatments, products, and laser settings were used last time.

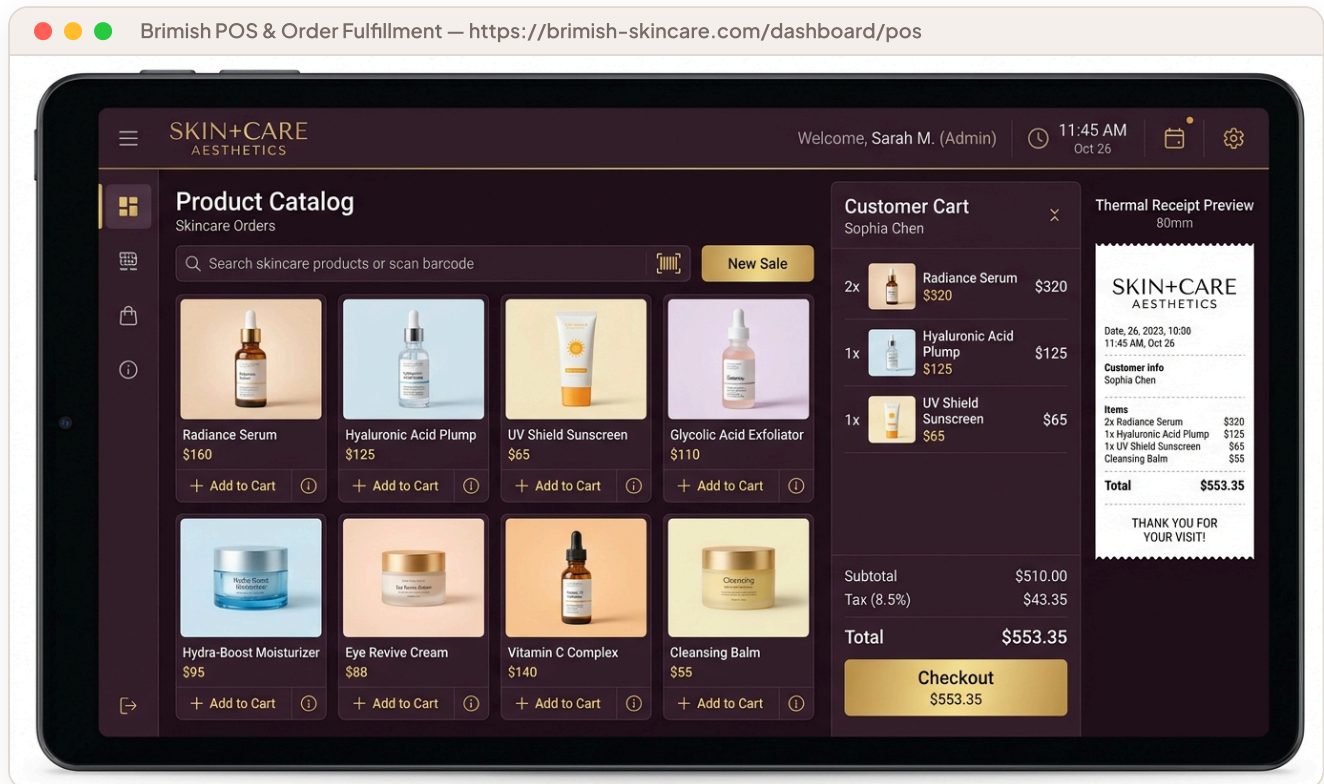

MODULE 4 • FRONT DESK & POS TERMINAL

Point of Sale (POS): Fast Billing & Thermal Slips

Bill walk-in patients and sell skincare products at the reception desk in less than 30 seconds with automatic tax and discount calculation.

Touchscreen Counter Billing

One-touch category tabs for **Treatments** (HydraFacial, Peels, Lasers) and **Skincare Products** (Serums, Sunscreens, Cleansers). Tap to add directly to cart.

Mandatory Patient Verification

Patient Full Name & WhatsApp Number are strictly required before printing. This ensures 100% of walk-in patients are saved to your clinic database forever.

Flexible Discounts

Apply percentage (e.g. 10% Eid Special) or flat PKR discount (e.g. Rs. 1,000 off). The bill recalculates subtotal, tax, and net payable automatically.

Multiple Payment Modes

Accept Cash, Credit/Debit Card (POS machine), Direct Bank Transfer, or JazzCash / EasyPaisa. System records the exact payment method for daily reconciliation.

Instant Thermal Receipt

Prints standard 80mm clinic receipt with logo, Doctor's name, itemized services, tax registration, and barcode. Features clean outlined badges (never messy).

THERMAL SLIP PRINT QUALITY:

Receipts are formatted specifically for standard 80mm thermal receipt printers. They print instantly with no dialogue delay and look crisp, elegant, and professional.

MODULE 5 • E-COMMERCE & SKINCARE DELIVERIES

Online Store Orders: Nationwide Delivery Control

Manage customer orders placed on your website from Lahore, Karachi, Islamabad, or anywhere in Pakistan with 1-click dispatch slips.

Complete 4-Stage Order Fulfillment Pipeline:

1

Customer Places Order Online **PENDING**

Customer orders serums or creams on your website. Your notification bell chimes instantly with customer name, phone, delivery address, and items ordered.

2

Verification & Confirmation **CONFIRMED**

Click "**Confirm**" or tap the WhatsApp icon to message the customer. Stock is automatically reserved in your inventory so items never oversell.

3

Print Thermal Dispatch Slip & Pack **DISPATCHED**

Click "**Print Dispatch Slip**". A high-clarity 80mm thermal shipping label prints instantly. Stick it on the courier flyer (TCS, Leopard, Trax, Call Courier).

4

Courier Delivers Cash-on-Delivery (COD) **DELIVERED**

Mark order as "**Delivered**". Money received is credited to your online store sales record and reflected in monthly profit statements.

Courier Thermal Label Printing

You don't need expensive sticker machines! The system formats courier dispatch slips directly for your existing 80mm thermal printer with sender clinic details, recipient address, phone, COD amount, and tracking barcode.

Instant Inventory Synchronization

When a customer buys 2 bottles of Niacinamide Serum online, your clinic inventory automatically drops by 2. This prevents clinic reception and website from fighting over the same stock!

COURIER READY ACROSS PAKISTAN:

Every dispatch slip contains clear Cash-on-Delivery (COD) amounts in large, bold numbers so courier drivers never make billing mistakes at the customer's doorstep.

MODULE 6 • STOCK & WEBSITE MANAGEMENT

Inventory & Website: Complete Control Without Coding

Dr. Bilal can update treatment prices, add new skincare formulas, manage stock levels, and publish patient before/after results anytime.

Real-Time Stock & Consumables

Stock Ledger: Track every item in clinic (HydraFacial serums, peel solutions, cannula needles, take-home retail products).

Low Stock Warning: Set minimum threshold (e.g. 5 units). When stock hits 4, the dashboard notifies you so you reorder before running dry!

Aesthetic Treatment Menu Control

Price Updates: Change treatment prices in 5 seconds without hiring a web developer.

Service Details: Edit session duration, recommended sessions, downtime (e.g. "Zero Downtime"), and high-res treatment photos shown on the website.

More Features Under Dr. Bilal's Full Control:

Add New Skincare Products

Upload new products to your online store with product name, price, ingredients list, how-to-use directions, skin type suitability, and bottle photos.

Before & After Gallery

Upload genuine clinical results (Acne scars, Melasma, Skin tightening) to your website's public gallery to build trust and drive high-ticket bookings.

Patient Reviews Moderation

Approve and feature glowing 5-star patient reviews on your clinic homepage. Filter out spam or unverified comments with one click.

Automated Tax & GST Invoicing

Generates standardized tax invoices with official clinic NTN/STRN, doctor license number, patient details, and sequential invoice numbers (INV-2026-001).

Staff Role & Permission Control

Assign staff roles: Receptionist (can book and bill), Inventory Manager (can update stock), Doctor (can view medical records and clinical notes).

ZERO DEPENDENCY ON IT AGENCIES:

Everything is visual and point-and-click. Whenever you launch a new treatment (e.g. Exosome Therapy or Pico Laser), you can add it to your website in 2 minutes!

DAILY OPERATIONS • DOCTOR'S QUICK REFERENCE

10-Second Quick Cheat Sheet for Dr. Bilal

Simple, step-by-step instructions for the most common tasks performed in your clinic every single day.

Task / Action	Where to Go & What to Click	Result
